

Financial Markets and Corporate Finance

Composante
IAE Savoie
Mont Blanc

En bref

- › **Langues d'enseignement:** Anglais
- › **Méthodes d'enseignement:** En présence
- › **Ouvert aux étudiants en échange:** Oui

Présentation

Objectifs

Upon completion of the module, students will

- * Be able to understand how the main asset classes (cash, bonds, equities ...) may be used for Investment management (programme ILO K1)
- * Be able to understand how economic variables like growth and inflation impact financial markets and the performance of the various asset classes (programme ILO K2)
- * Know how central banks policies – both conventional and unconventional – impact financial markets (programme ILO A1)
- * Be able to understand why currencies should be treated as a separate asset class in the asset allocation process and currency valuation and hedging should be dealt (programme ILO BW1)
- * Master the various techniques used to hedge investment risk of the major asset classes (programme ILO BW1)
- * Know how to value the equity market in absolute terms and relative to the bond market (programme ILO S1)
- * Know the main tools used to measure company and sector valuation (programme ILO K2)

Heures d'enseignement

CM

Cours Magistral

50h

Plan du cours

Financial Markets

- 1) Characteristics of the main asset classes (cash, bonds, equities, commodities, alternative investments, currencies)
- 2) Measure economic growth and detail the various tools used to predict future economic activity
- 3) Analyse the impact of economic growth on the main asset classes
- 4) Detail the various measures of inflation (headline, core, cost-push, demand pull)
- 5) Analyse the impact the growth-inflation mix on the major asset classes
- 6) Central bank policies – both conventional and unconventional – and their impact on financial markets

Corporate Finance

- 1) Equity Valuation
- 2) Combining top-down and bottom-up analysis for optimum investment management
