

Metrology for mechatronic systems

ECTS
3 crédits

Composante
Polytech
Anancy-
Chambéry

En bref

- > **Langues d'enseignement:** Anglais
- > **Ouvert aux étudiants en échange:** Oui

Présentation

Description

Quality, measurement, repeatability, reproducibility

Knowledge to choose an appropriate sensor, design a conditioning electronics, implement the constituting elements of the acquisition chain of an analogic or digital signal

Heures d'enseignement

Metrology for mechatronic systems - Self-learning	Enseignement à distance	40h
Metrology for mechatronic systems - Tutorials	Travaux Dirigés	4,5h
Metrology for mechatronic systems - Practical	Travaux Pratiques	8h

Pré-requis obligatoires

Undergraduate mathematics education

Fundamentals of statistics and probabilities
