

Signals and systems, continuous control (EASI701_AM)

En bref

- > **Langues d'enseignement:** Anglais
- > **Ouvert aux étudiants en échange:** Oui

Présentation

Description

Basics of linear dynamical systems, Signal representation, Transfer functions, Frequency analysis, Basics of stability and control of dynamic systems, Stability of linear dynamical systems, Standard controllers, Robustness

Heures d'enseignement

| | | |
|---|-------------------------|------|
| Signals and systems, continuous control - Self-learning | Enseignement à distance | 30h |
| Signals and systems, continuous control - Practical | Travaux Pratiques | 8h |
| Signal and systems, Continuous control - Tutorial | Travaux Dirigés | 1,5h |
